FLOOR DEBATE

March 19, 2002 LB 1310

guess that's what the answers each of us are going to have to make. But in this particular specific case, this does not take away in the long term, I really don't believe, the intent of the original to do for tobacco prevention. It is an issue that I guess I'll have to wait till Select File to face till we see how the cigarette tax issue goes, but there is no money added back under the present concept as was the original intent, I guess in this case, of the Governor, so I will acknowledge that particular dilemma.
